

CER Ticketing Roadmap for seamless international passenger rail travel

The vision

Passengers will have a seamless user experience when searching, selecting, buying and using rail services, including first and last mile transport, with:

- access to **simple, reliable and comprehensive online information** regarding timetables, prices, dependable real-time information and ticket purchasing for (rail) transport services, both domestic (urban, regional, long-distance) and international
- **easy acceptance throughout Europe** of tickets issued by different railways and ticket vendors
- **guidance in case of travel disruption** on onward journey options and passenger rights

How we get there

What we need to achieve it

- ➔ Financial and regulatory support for the Ticketing Roadmap
- ➔ **Facilitated cooperation** between rail companies as part of the overall objective to achieve the Green Deal
- ➔ Data exchange based on **voluntary contractual agreements** and explicit recognition of the **rights of data generators**
- ➔ A **level playing field** for all transport modes to improve the competitiveness of rail
